### REPORT ON CEMETERIES

At the meeting of the Board of Health held yesterday afternoon Dr. Mays presented the following report in re cemeteries:

Honolulu, March 9, 1904.  
To the President and Members of the Board of Health.

At the close of its last meeting the Board as a whole made a tour of the city cemeteries.

Kawaiahao Cemetery—The general appearance of this cemetery is not pleasing. Many of the graves show evidence of constant care, and the plots and walks are for the most part neatly kept and free from weeds. It is impossible to form an estimate of the amount of ground still untenanted, owing to the fact that many of the plots have been leveled off, leaving nothing to indicate how many have been buried there in former years.

The records of the Health Department, which do not cover the earlier years of the cemetery, show 2,576 burials to date. An actual count of the graves now to be seen there would not probably exceed 700 or 800. This custom of obliterating the graves of the forgotten dead should be prevented if possible.

Catholic Cemetery, King street—The overcrowded condition of this cemetery is apparent to the most casual observer. Its unsuitability for further interments, except perhaps in a few spots near its mauka border, is acknowledged by the authorities of the cemetery and by Catholics generally. It is therefore most satisfactory to note that, near Pearl City, a new Catholic cemetery, to take the place of this one, has already been laid out and consecrated.

Makiki Cemetery—The portion of this cemetery that was set aside for Japanese burials is full to overflowing. Even the walks and paths are being utilized. It is anomalous that a people who form a majority of the inhabitants of this city should have but this one little strip of ground in which to bury their dead.

W. H. MAYS.

It was decided that President Cooper should see the Japanese controlling the Japanese burial grounds in the Makiki cemetery with a view to have it closed up.

### REASON OF POSTPONEMENT

There has been a great deal of conjecture in political circles regarding the recent action of the Home Rule Central Committee in postponing the date of the convention which was to have been held this week in the city.

The decision was arrived at very suddenly. President Kalaupokalani stating that there was really no business to come before the body of delegates and therefore a postponement should be agreed to.

If reports from the inner councils of the party are to be believed the postponement of the convention was for the express purpose of heading off the members of the party, including the Maui delegation, who are in favor of fusion. The anti-fusionists wanted more time. They were afraid that if the convention took place this week the fusionists would win out. With a little more time they will be able to get in some hard work and perhaps turn the tide their way.

As it stands at the present time, there is a deadlock between the two factions which does not show any signs of letting up.

**A RAPID TRANSIT EPISODE.**

This morning about half past ten, a tall lady with a half-sized husband, boarded a King street car. The lady was wearing her husband on her right hand, when they entered the husband looked up, and said to his wife: "You're tall enough to reach a strap, but what can I hold," she said, "if I was as short as you are, I'd hold my tongue," so he took hold of his tongue, the car started and he fell down, whereupon his dutiful spouse hollored, "What's the matter, can't you stand up?" Said hubby, "They both slipped." "Both what," said the wife. "Both my feet and my tongue," said the little husband, but let's get off the car and go and see Bath the plumber.

## Some Get Sick This Way

Then My Book Is a Help

The Book Tells a Way To Health

Which shall I send?

For \$1 on Dyspepsia  
Book 2 on the Heart  
Book 3 on the Kidneys  
Book 4 for Women  
Book 5 for Men (weak)  
Book 6 on Rheumatism

When you are losing strength. When your nerves are failing. When your vitality is slipping away. When something is eating away your constitution. Then my book will tell you a way to help. And the book is free.

It will tell you of my past—of 30 years given to the sick. It will tell you how I found the cause of all this weakness. It will tell you that the inside nerves have failed. And it will appear to you as clearly as the light of day.

Not the nerves you know about, that you feel with, that you command when you walk, when you move, that regulate the heart. The nerves that mean either strength or weakness to the stomach, the liver, the kidneys—to all the organs that are essential to health, to life and to happiness.

This was my greatest discovery. Then the way to health was clear. I must vitalize these weakened inside nerves. In hospitals and at bedside my work was to that end.

At last my prescription was perfected. I called that prescription a restorative. It is now

Known the World Over: As

**Dr. Shoop's Restorative.**

And why this unusual publicity? What brought it so quickly before the people? There are three vital facts in this story.

First, my individual—my personal application of a treatment to these cure inside nerves.

Secondly, the prescription itself—the only one that acts directly on these failing nerves.

Thirdly—and the most conspicuous reason—is because I announced to the world that practically any sick one—anywhere—was welcome to use Dr. Shoop's Restorative a whole month without the risk of even a single penny.

After this, my discovery, failures were so few that I could safely make this offer.

And the simple way to that help is this: You write me for the book you need.

Send no money. A postal card will bring the book. If you need my advice it is free. Tell me of your ailments as you would your home doctor. Write to me in strictest confidence.

Then with the book I'll send the name of a druggist near you who will grant the month's treatment on trial.

All druggists keep the Restorative. All do not greet the trial though, so write for the name of one who does.

Six bottles will be offered for the test. If the Restorative satisfies the cost to you is \$4.50. If it fails, the loss is mine. The druggist will bill the cost to me. And you alone will be the judge.

I know you will gladly pay \$4.50 when it brings you the help you need.

Write now—today. Dr. Shoop, Box 531, Racine, Wis.

Mild cases, not chronic, are often cured with one or two bottles. At druggists.

### HE FROWNED.

"Full well the busy whisper, circling 'round, Conveyed the dismal tidings that he frowned."

Goldsmith's "Pedagogue" was a man of moods, and his pupils understood them.

He frowned, probably because his eyes were defective: it was an indication that he needed glasses, but in those days they were not to be had, scientifically adjusted for such defect.

We live in a different age.

Here we supply glasses for all defects of vision—properly adjusted.

TO INSPECT PLANTS.

New rules concerning the shipment of plants on inter-island steamers were adopted at the Board of Agriculture meeting yesterday afternoon, as follows:
